Confessions of a converted lecturer

"I thought I was a good teacher until I discovered my students were just memorizing information rather than learning to understand the material. Who was to blame? The students? The material? I will explain how I came to the agonizing conclusion that the culprit was neither of these. It was my teaching that caused students to fail! I will show how I have adjusted my approach to teaching and how it has improved my students' performance significantly."

Prof. Eric Mazur

19 octobre 2012 de 11h00 à 12h30

Auditoire D – Amphipôle – UNIL

La présentation sera suivie d'un  conseil en présence du conférencier
